

How to Sign-Up for Desired Email

A quick, friendly guide to creating your Desired Email account.

Welcome. This short guide will help you create your Desired Email account in a simple and easy way. The steps are written clearly so anyone can follow along, even if you are completely new to computers. Most people finish everything in about 2–3 minutes, not counting any waiting time from Stripe.

There is no need to worry about anything. We will walk with you through each step, one at a time, so you always feel confident and supported.

Step-by-Step Instructions

3. Enter your Promotion Code (if you have one)
4. Enter your name and all other needed information
 - If your DMail address shows a green check under Available, you are good
 - If you see a red X, that name is taken and you will need to try a different one
5. Write down your password (we do not know it, so please keep it safe)
6. Write down your DMail address (you will use this to log in)
7. Write down your domain name (if you have one)
8. Toggle between Annual and Monthly pricing by pressing the gray button (it starts on Annual)
9. Choose your account types and how many you want
10. Click the gray Sign-Up button
11. You are automatically transferred to Stripe. This is our secure and trusted payment partner, and you will enter your payment information on the Stripe page
12. Stripe will display a message telling you if your payment was successful or not. This may take around 15 minutes during high-volume times, so please do not worry if it takes a moment
13. You are automatically transferred back to our site
14. If your payment was successful, you can log in right away and start using your account
15. If your payment was not successful, please try signing up again
